 The Chief, Allocations Branch

MAY 17 1993

FCC MAIL ROOM

OPPOSITION TO PROPOSED RULEMAKINGANDPETITION FOR COUNTERPROPOSED RULEMAKING

Comes now, Fatima Response, Inc., Permittee of radio station KRKD-FM, IN PRO
 PER, and respectfully requests that the Commission dismiss or amend the proposed
 rulemaking at Corning, California and accept this Counter-Proposed rulemaking
 request. The petitioner "Fatima," requests that the Commission's Rules be
 amended to allot the following FM channel to the Community of Dunsmuir, CA for
 use by radio station KRKD-FM and amend Section 73.202(b) as follows:

<u>CITY</u>	<u>EXISTING</u>	<u>PROPOSED</u>
Dunsmuir, California	261 C-3	261 C-1

In support whereof, the following is shown:

1. Fatima Response, through this counter-proposed rulemaking request, pleads that the Commission allot FM channel 261 C-1 to the Community of Dunsmuir, California as that community's FIRST WIDE AREA FM RADIO SERVICE of any kind and modify the outstanding construction permit of radio station KRKD-FM for use of the channel under current Commission Rules and

245

Policy as outlined in Docket 85-313 and Docket 86-114. "Fatima" requests the upgrading of the present channel to class C-1 level for use by KRKD-FM.

2. Dunsmuir, CA is incorporated as a city under California State Law and is so listed by the Bureau of The Census, United States Department of Commerce. It has its own public services and businesses, and under Section 307 (b) is entitled to an allocation and its own radio service. As shown in the technical engineering exhibits, this counter-proposal is mutually exclusive based on the need to relocate FM channel 261 C-1 to an existing transmitter site on Sugarloaf Mountain, only 26.5 miles north of Redding and 26 miles south of Dunsmuir. This proposed site is well within Commission requirements for coverage of the 70 dBu over the City of License.

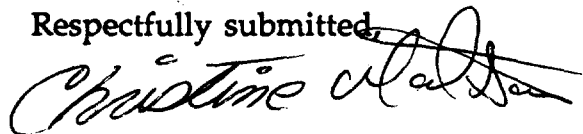

3. Fatima Response Inc., through this petition for rulemaking, confirms its intention and willingness to apply to the Commission for use of the proposed channel at Dunsmuir, California should the Commission allot FM Channel 261 C-1 or other channel of equal class.

4. The attached frequency studies confirm, as fact, that the counter-proposed channel can be assigned as requested.

In conclusion, "Fatima" respectfully requests that the Commission dismiss or amend the proposed rulemaking at Corning, California and accept this counter-proposed rulemaking to allocate FM Channel 261 C-1 to Dunsmuir, California for use by Radio Station KRKD - FM and that the Commission modify the construction permit of KRKD-FM accordingly.

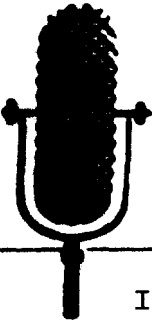

Dated May 11, 1993.

Respectfully submitted,

Christine Matson
Treasurer
